

Healthcare Transparency: Conceptual Data Model

LEGEND:

- Sources:**
 - BCBS of TX MRF files (json, via bulk download)
 - TX Hospitals MRF files (csv, via bulk download)
 - NPPES Registry (json, via api)
 - CMS MCD Billing & Coding articles (pdf, via api)
- \$Payer_\$Plan** == Health plan rates are split up into multiple tables, e.g. BCBSTX_Blue_Choice. They represent the dollar amount that an insurer has agreed to pay an in-network healthcare provider for a specific covered item or service.
- Hospital_\$State** == Hospital rates are split up into multiple tables by state, e.g. Hospital_TX. They represent the dollar amount charges that a hospital negotiated with an insurer of a health plan for a specific service.
